Professional Experience

AIIQ - AIBuildIQ, Full Stack Software Engineer 10/2025 – Present

- Develop features independently across frontend (**React/Next.js**) and backend (**Node.js/NestJS/FastAPI**) in TypeScript
- Design and implement RESTful APIs; integrate **Stripe** for payments and subscriptions
- Participate in code reviews
- Collaborate asynchronously using Agile workflows

Symph, Developer Intern 08/2025 – 09/2025

- Built production features using **Next.js**, **TypeScript**, and **Nest.js** in an Agile team Cebu City, Philippines
- Integrated RESTful APIs with PostgreSQL databases; followed established coding standards
- Participated in code reviews and sprint planning within an **Nx** monorepo codebase

CH5 Cooling Supplies, Software Developer (On-call) 02/2025 – 05/2025

- Independently built and deployed a **Next.js** marketing site with SEO optimization Cebu City, Philippines
- Achieved high search engine rankings; managed deployment via **Vercel**

Skills

Frontend

React, Next.js, TypeScript, Tailwind CSS, TanStack Query, Zustand, React Native, Expo, shadcn/ui, Framer Motion

Databases & Services

PostgreSQL, MySQL, Supabase, Stripe, Cloudflare R2, relational modeling & query optimization

Testing

Jest (unit & integration)

Backend

Node.js, NestJS, Express, FastAPI, Prisma, TypeORM, Sequelize, OAuth, bcrypt, Argon2

Tools & Workflow

Git, GitHub, Postman, Insomnia, DBeaver, Figma, Canva, Spline, Lucidchart, Vercel, Agile/Scrum

Projects

Codex, Developer Onboarding Tool

Made an app for developers to centralize their stack documentation and environment keys. Streamlines project onboarding by eliminating the need to traverse multiple apps for credentials and setup info.

Next.js, Nest.js, Supabase

Verso, Smart Learning Platform

Intelligent learning app that turns written notes into targeted flashcards and mock exams, reducing manual study prep.

Next.js, Supabase

Catalog, Web Inventory Management System

Full-stack Inventory Management System using **React**, **Bootstrap**, **Express.js**, and **MySQL** for CRUD operations and data management.
